**More about the Veterans For Peace Golden Rule Project**

In 1958 four Quakers sailed the **Golden Rule** toward the Marshall Islands in an attempt to interfere with nuclear bomb testing. They resupplied in Honolulu and sailed out towards the Pacific testing zone, but the US government arrested the crew, causing a firestorm of reaction against nuclear weapons tests. This helped stop nuclear bomb tests worldwide and inspired the start of Greenpeace.

*Golden Rule* sank in Humboldt Bay in Northern California in 2010 and was brought up and restored by dozens of volunteers and re-launched in 2015.

For four years the *Golden Rule* sailed the West Coast of the U.S. We give educational presentations, participate in wooden boat shows, and lead "Peace Fleets" to protest against militarization of our cities.

**With tensions high between the U.S. and other nuclear nations, it is time for the *Golden Rule* to sail into the Pacific to support the United Nations Treaty on the Prohibition of Nuclear Weapons. Education and action are needed now more than ever!** Help us spread a message of peace and resistance to nuclear war and energy! We need funds, but we also need authors, speakers, artists,

Donate by check to: VFP Golden Rule Project, PO Box 87, Samoa, CA 95564
