

# Test Your NAVY IQ!

## QUESTIONS:

1. How many aircraft carriers in the US Navy?
2. How many identified contamination sites within the Pearl Harbor Naval Complex?
3. What is the cost of missile tests between Vandenburg AFB in California and Kwajalein Atoll in the Marshall Islands?
4. How much will the Navy's DDG-1000 Stealth Destroyer cost?
5. What is the cost of the Aegis missile program, developed and tested here on Kauai at PMRF?
6. Because of deficits and hard times at home, how much will the Pentagon's (and Navy's) budget be reduced over the next ten years?
7. How does US military spending compare to other countries?

## ANSWERS:

1. Eleven. That's 10 more than any other country. Two more, the *John F Kennedy* and the *Gerald R Ford*, are under construction at an average cost of \$2.7 Billion. (1)
2. 748. All consolidated into one superfund site. Cost to clean up estimated at \$2.6 Billion. (2)
3. \$100 Million. The sea based X-Band Radar, a 280 foot tall ocean going platform critical to the scripted testing, costs \$800 Million. (3). Checking all shipping containers arriving in US for radioactivity has been stalled by Homeland Security Sec Napolitano as "not technologically feasible".
4. \$3 Billion. With research and development added, \$7 Billion. (4)
5. Figures not available to the taxpayers. Lockheed Martin, the lead contractor, billed the Pentagon for \$45.8 Billion in 2010, a \$260 "Lockheed Martin" tax on every American household. (5)
6. After growing 6% each year for the last ten years, the military budget is projected to grow 2.5% each year for the next ten years. (6)
7. More than the next 15 countries combined. Almost five times more than China. The US spends 4.7% of GDP, the world average is 2.6%. (7)
